PET PACKAGING STRATEGIES

You can't do this job alone

OUR INVITATION TO BE A PART OF THE 2ND ANNUAL PETNOLOGY AMERICAS

DEAR ATTENDEES, SPEAKERS AND SPONSORS,

Advancements in technological innovation and discussions relating to the current and future states of the PET packaging industry will be key focal points at the 2019 PETnology Americas conference.

Produced as a collaborative partnership of The Packaging Conference and PETnology, the event is the only technology-focused PET exclusive conference hosted in the Americas. The first event, presented in June 2018, was marked by lively and controversial discussion of the PET packaging value chain with a special focus on sustainability and the circular economy.

PETnology Americas has been designed for packaging industry professionals looking for a one-stop-shop for the latest innovations in technology, product launches and machinery designed to accelerate the PET industry.

Increased aggressive sustainability goals are forcing the industry to take a closer look at recycling challenges related to stagnant collection rates in the U.S., creating a direct impact on the amount of available post-consumer recycled material needed to achieve these goals. The conference agenda was designed to address this concern, as well as address topics such as recycling challenges related to collection and processing, innovative resin development, machinery and technological advancements, packaging innovations in package design, as well as pushing the limits on preform and closures.

The conference offers multiple intimate networking opportunities for anyone working in the global PET industry, in an effort to connect all facets of PET production and consumption within the packaging industry in a smaller setting.

We hope to see you in May!

TABLE TOP EXHIBITION CONFERENCE

EXHIBITING AT PETNOLOGY AMERICAS

This conference has been designed to allow for maximum exposure and for great networking opportunities by allowing your display to be set up before the conference begins on Monday and will remain in place until after the conference ends on Tuesday evening. Attendees will pass in front of your table outside the general session amphitheater and to and from refreshment breaks each day.

EACH EXHIBIT WILL HAVE:

- One 2.5' X 6' table with skirt, no backdrop provided, no useable back wall in most cases
- If you wish to use a freestanding backdrop/popup, this can be accommodated.
- Each table will have a 110v AC power outlet.
- Storage for additional materials or shipping containers will be available.
- Wireless Internet access is available. SSID and password will be available at the check-in desk.

COSTS: \$1,090
